We Take Care of Your Breath

Working Principle

An oxygen concentrator is a device which collects oxygen by means of the Pressure Swing Adsorption Methodology (PSA Technology) to separate nitrogen from ambient air. It supplies a high concentration of oxygen and is used with a nasal cannula to channel oxygen from the concentration to the patient.

Owgels OZ-5-01GW0 (10L oxygen concentrator)

Specifications

Dimension	325*350*670(mm)	Power Consumption	700 Watts
Oxygen concentration	93%+/-3% at the flow of 10 LPM	Electrical Requirement	On an as-needed basis
Oxygen Output Pressure	30-60Kpa/ 4.3-8.7 Psi	Sound level	Below 60 dBA
Weight	29.5kg	Warranty	2 years

Basic Function

Power On/Off
Oxygen
Exchange
Timer
Atomization
Smart Alarm design (low pressure, low oxygen, power outage)

We Take Care of Your Breath

Product Introduction

1. Owgels Oxygen Concentrator OZ-5-01GW0 comes with two flow-meters having flow from 0-5 liter and 0-10 liter per minute, it can be delivery 5LPM oxygen with 2 persons at the same time, and can delivery 10LPM with one person.
2. Purity of oxygen has more than 93%+/-3%
3. It also has built in nebulizer which can be given to patient through mouthpiece or mask.
4. Double Flow meter has illuminating during night.
5. The machine has high temperature indicators with alarms, machine should shut off to case of high temperature.
6. The machine has audiovisual alarm (or power failure,low oxygen level, low pressure).
7. The machine has oxygen purity indicator and alarm if oxygen purity level decreases below 82%.
8. It has medical graded molecular sieves with zeolite volume 20% bigger than that of other brand.
9. The machine has built in castors for easy mobility and a handle/handgrip for easy movement facility.
10. The machine has digital LED/LCD timer showing aggregate run time of the machine and also time counter since machine put on for use.
11. Provision in timer for setting the time of use with ten minute variation, and machine should shut off automatically after set timing.
12. This machine has O2Air suction inlet filters (1 air filter and 1 hepa and moisture filter) and it is easy to replace and maintain.
13. Power Supply 220-24A VAC; 50 Hz
14. The machine has inbuilt safety mechanism for voltage fluctuation.
15. The machine is user-friendly, quite (for restful sleep) & safe.
16. The machine has provided with cover nasal cannula & Humidifier- 2 sets and 2 pcs of filter inside and descriptive working manual. Accessories go with supplied as per 2 flow-meters.
17. The machine has provided with 2 years warranty.
